

SYDWAY GREATER SYDNEY STREET DIRECTORY

INTRODUCTION

Ten years of painstaking research and development resulted in the production, in December 1993, of the first edition of **Sydney Street Directory**. This directory is the most detailed, and comprehensive Sydney street directory ever published. Recognition of the high standards set by **Sydney** is evident in the conferring of two prestigious awards, namely :

- Advance Australia Award 1994
- Australian Institute of Cartographers – Excellence in Cartography Award 1994

Sydney has established, and maintained, a reputation for producing multi-coloured maps of great clarity, and detail. Every edition of this outstanding directory is an updated version of the previous edition, incorporating new, and helpful features. These regular revised editions with accurate maps and innovative features have given **Sydney** a strong presence in the market place. In keeping with our policy of providing a product that satisfies the needs of the consumer, many suggestions and recommendations put forward by readers, have been incorporated.

Sydney is produced and printed in Australia, by a wholly owned Australian company. The most durable materials, and the latest bookbinding technology available, are used in production. These superior qualities combine to make the directory a market leader.
